How to fold and cut a “Poof Book”

- 1. Fold your paper carefully in half 3 times—match the corners to make sure the paper is folded straight! Should look like a little card. Wait! We’re not done!
- 2. Open your paper up all the way and make a dot in the middle of the paper (where the folds make a + sign).
- 5. Fold your paper in half again and mark the center again with a dot. Now cut from the dot to the next dot. Stop!
- 6. Open up and fold paper in half to look like a giant hot dog bun.
- 7. Poof Trick! Pop the center of the book out in the front and back. Collapse the poof to make a giant + sign. Collapse the + sign into a little book that has 8 pages. Now you’re ready to write about a cool kind of pet!!
- 8. Little kids can cut up the idea sheet prompts and glue on each page to tell about a pet. Big Kids - Write like a “Pro!” Use Capital letters and periods at the end of each sentence. You can do it!!
